

## DIRECTIONS FOR USE

For optimal results apply BioOne during times of minimal water use.

- **SLOW DRAINS:** Mix 1 scoop of BioOne in 1 pint of warm water. Pour slowly in drain. Treat daily for 5 consecutive days or until drain flows freely.
- **PREVENTATIVE MAINTENANCE:** Treat all drains monthly with 1 application, mixing 1 scoop with 1 pint of warm water for optimal results.
- **SEPTIC SYSTEM MAINTENANCE:** Mix entire canister with 2 gallons of warm water and add directly to septic tank or flush down toilet.

For more product and application information, visit [www.BioOneSolutions.com](http://www.BioOneSolutions.com)

**BioOne**
